

To Search By Material:

-**Check off the material(s)** you are interested in recycling by clicking the box next to the material name on the left side of the map. Each material has a different symbol. When you open the map, aluminum is the only material selected.

-**Zoom** in with the zoom tools on the left side of the map or on the toolbar above the map. When you zoom in far enough, the name of the business will appear next to each symbol on the map.

Toolbar:

-**Pan** to other areas of the map using the hand tool , located in the toolbar on the upper right side of the map. When you open the map, this tool is on automatically.

-Use the **identify tool**  to click on a symbol/facility on the map for more details (address, phone number, fee information if available)

To Search By Facility Name:

-Click on “**Search by Recycler Name**” at the top of the map.

-Type the name of the business you are searching for (the search is not case sensitive, but spelling must match the spelling in the map’s records).

-Results will display on the map (pushpin symbols) and will also be listed under “Results” on the left side of the screen. Clicking the plus button next to a result listing will show additional location details, including accepted materials.

To See All Recyclers in Nevada and What Materials They Accept:

-Scroll to the bottom of the materials list on the left side of the map.

-Click on the box next to “**All Recycling Locations**”.

-To see the materials accepted at any given location, select the **identify tool**  on the toolbar. Then click on the facility (green dot) you are interested in. Click on the down arrow in the pop-up box, and then click on Recycling Materials at the bottom.
